

IN THE SPECIFICATION

Applicants propose to submit a substitute specification in accordance with 37 C.F.R. § 1.125. Thus, attached herewith in accordance with 37 C.F.R. § 1.125(c) is: (1) a “marked-up” version showing the changes relative to the immediate prior version of the specification of record, and (2) a “clean” version incorporating the changes.

In addition to addressing the objections to the disclosure and drawings set forth in the Office Action, the substitute specification also: presents the correct arrangement of the application in accordance with 37 C.F.R. § 1.77; uses paragraph numbering, in lieu of line numbering, in accordance with 37 C.F.R. § 1.52; updates the Statement of Related Applications to reflect the issuance of patents; and restates the brief description of Figures 11A, 11B and 11C, which was included in the application as originally filed, but inadvertently referenced Figures 10A, 10B and 10C.

The substitute specification includes no new matter.
